

**Annual Assurance Statement
by the Management Committee
of Blochairn Housing Association
26 October 2021**

As a registered social landlord (RSL), Blochairn Housing Association is required to submit an Annual Assurance Statement to the Scottish Housing Regulator. Our Annual Assurance Statement 2021 was considered and agreed by the Management Committee at its meeting on 26 October 2021.

The Scottish Housing Regulator has not prescribed what the Annual Assurance Statement should look like. We have, therefore, developed a Statement that we think is appropriate for our organisation, given its size and structure, and for our tenants and other customers, whilst also meeting the Regulator's expectations.

In 2019, we used the 'toolkit' recommended by the Scottish Federation of Housing Associations. We considered whether we were sufficiently assured that we comply with Regulatory requirements and whether we were sufficiently confident that we can assure our tenants and other customers. In 2020, an independent Internal Audit of our process, including ongoing monitoring, described our performance as 'Strong'. We have used the same process for 2021.

We have received sufficient and appropriate assurance and that there are no areas of material non-compliance with regard to

- ✓ regulatory requirements set out in Chapter 3 of the Regulatory Framework
- ✓ relevant standards and outcomes in the Scottish Social Housing Charter
- ✓ relevant legislative duties
- ✓ Standards of Governance and Financial Management

There are a number of things we will do to improve our performance and to give us further assurance. The most significant of these is to consider the guidance on collecting equality information to allow us to assess and monitor our performance on Equalities and Human Rights and to implement Equality Impact Assessments.

Our Annual Assurance Statement is publicly available. It will be posted on our web site and any interested party can ask us for further information.
